### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claims 42 and 44 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for the reasons of record set forth in the Office action of 4/16/04 and/or the new reasons set forth in the Office action of 118/04 concerning the amendments to claims 41, 42, 47 and 49. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant asserts that the amendment overcomes the rejection. However, the amendment to claim 42 does not address the issue. This rejection would be overcome by amending claim 42 as was claim 36 regarding the placement of the third nucleotide sequence as an insertion into the first or second sequence in a region non-essential to replication of the adenoviral vector.

Claims 42 and 44 are rejected under 35 U.S.C. 112, first paragraph, for the reasons of record set forth in the Office action of 16 Sep. 2002, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Art Unit: 1632

Claim 42 has been amended to recite that the method is for delivering a vaccine antigen to a grazing animal. As indicated in the rejection of these claims set forth in the Office action of 16 Sep. 2002, the only disclosed use for delivering a vaccine antigen to a grazing mammal is for the purpose of vaccinating the mammal against the pathogen from which the antigen is derived. The specification does not enable vaccinating mammals with the recited vector for the reasons of record. Applicant has provided no new arguments or evidence having a bearing on the original grounds of rejection. These grounds of rejection have been reinstated due to the amendment to claim 42.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
